PROJECT TIMELINE, continued...

Internal Design	7	14	21	11	4					
Internal Design				28	6	13	20	27	3	10
Drill-down External Design										
Perform Internal Design of Each Module.										
Conduct Design Walk-throughs										
Investigate & Resolve Issues							3			
Summarize Walk-throughs										
Update Project Plan & Timeline.										
Construction Prepare Environment										
Create/Update Database & Files										
Generate Code										
Update Code										
Perform Unit Test (Testing Phase)										
Perform Code Walk-through.										
Testing				1						
Write Test Approach/Test Plan										
Conduct Test Specifications Review Meeting										
Update Test Specifications										
Execute Tests & Log Results										
Write Test Summary Report								3		
Redo steps A thru E until Expected Results are Achieved										v
Update Project Plan & Timeline										
	Module. Conduct Design Walk-throughs Investigate & Resolve Issues Summarize Walk-throughs Update Project Plan & Timeline. Construction Prepare Environment Create/Update Database & Files Generate Code Update Code Perform Unit Test (Testing Phase) Perform Code Walk-through. Testing Write Test Approach/Test Plan Conduct Test Specifications Review Meeting Update Test Specifications Execute Tests & Log Results Write Test Summary Report Redo steps A thru E until Expected Results are Achieved	Module. Conduct Design Walk-throughs Investigate & Resolve Issues Summarize Walk-throughs Update Project Plan & Timeline. Construction Prepare Environment Create/Update Database & Files Generate Code Update Code Perform Unit Test (Testing Phase) Perform Code Walk-through. Testing Write Test Approach/Test Plan Conduct Test Specifications Review Meeting Update Test Specifications Execute Tests & Log Results Write Test Summary Report Redo steps A thru E until Expected Results are Achieved	Module. Conduct Design Walk-throughs Investigate & Resolve Issues Summarize Walk-throughs Update Project Plan & Timeline. Construction Prepare Environment Create/Update Database & Files Generate Code Update Code Perform Unit Test (Testing Phase) Perform Code Walk-through. Testing Write Test Approach/Test Plan Conduct Test Specifications Review Meeting Update Test Specifications Execute Tests & Log Results Write Test Summary Report Redo steps A thru E until Expected Results are Achieved	Module.
